# VOICES OF OUR SCHOOL

## TRUE PATRIOT

Being a true patriot is not only about hoisting the flag on 15th August,  
It's also about getting your flag hoisted!

Being a true patriot is not only about standing up for the national anthem,  
But about ensuring that each child born in India should have the luxury of  
being able to feel proud about our country and our anthem!

Being a patriot is not about just sitting together once in a couple of years  
when ISRO is launching a satellite,

But about contributing towards being at the fore front of the missions...

And also supporting our scientists when the plans fail!

Being a patriot is not only about sitting all day supporting India at the  
Olympics,

But it is also about representing the country at the Olympics

It's also about standing up for our heroes!

Being a patriot is not just about putting up WhatsApp status and  
Instagram stories on Independence Day,

But also about contributing towards growth and development of the  
nation...

Being a true patriot is not about getting offended with this message,  
But about introspecting within yourself!

- DHVANI SANDLAS, XII E
