## SHRAVANI VED PRACHAR SAPTAH

**AUGUST 18 - 23, 2025**

A week-long Havan was organized at D.A.V. Public School, Aundh, from 18th to 22nd August 2025, with active participation from Classes V-IX and teachers. Around 80 shlokas were recited daily, accompanied by various student-led activities. On 23rd August, Class III students participated in a tree plantation drive, and a blood donation camp was held in collaboration with Govt. Civil Hospital, Aundh. Parents, school staff and drivers enthusiastically took part. 62 pints of blood was collected for this noble cause. The celebrations helped students understand the Vedas and connect with Arya culture.

# VOICE OF THE SCHOOL

## Space Kitten

A long time ago a kitten was born in ISRO. She was white and furry. She had beautiful blue eyes. Her parents were ISRO scientists. Her parents named her Kittu. When she was six years old, Kittu asked her father, 'Can I go in a spacecraft?' Her father said, 'Why not Kittu, you need to be trained.' Kittu got training for two months.

In 2025, Kittu boarded the spacecraft and was very excited to go to the space. Her first stop was the Moon. She found a furry friend rabbit. She carried carrots in her spacecraft.

She gave two carrots to her friend. The rabbit said, 'Congrats, you reached the moon. All the best.' Her next stop was Saturn. Kittu had a hula hoop. She tried playing but her hula hoop flew. Then she imagined playing hula hoop with Saturn's ring. She got tired.

She started her journey back to the Earth. Her parents were happy and proud of Kittu.
