## "ROLLING TO VICTORY"

My name is Isha. I have special story to tell you about my magical skates. I love skating. I started learning skating when I was 4 years old. At first, I could not balance. I fell many times and got hurt.

But I did not give up. Every day after school, I went to the skating rink. I wore my helmet and knee guards. My coach helped me a lot. I practiced again and again. Slowly, I learned to skate fast. I felt like I was flying.

One day, my coach told me to take part in a race. I was scared but also excited. I said yes. In my first race, I skated fast and won a gold medal. My family and coach were very happy. After that, I took part in many races.

I won at district and state levels. Then I went for a national competition. I was very nervous, but I tried my best. I skated fast and won.

I became a National Skating Champion and got medals and a big trophy. Now I practice every day. Skating taught me to never give up. I am very proud of myself.
